

## **NEW CAMP USAGE FEES FOR UNIT USE**

*Effective January 1, 2014*

Most volunteers understand the high cost of operating a camp and two in the case of the SWFL Council. The SWFL Council significantly subsidizes its camps annually at no additional direct costs to our youth and leaders for weekend use except for special program material costs. Almost all other council camps in our region charge units a flat per person usage fee in addition to any special recognition discounts and special program material costs.

*The SWFL Executive Board recently approved a new camp fee structure for certain units utilizing camp for individual unit use which became effective January 1, 2012. Those units that do not support council programs in the “Spirit of Scouting” and to “Do Their Best and To Help Others” will not reap the same benefits that others do and will incur additional costs related to camp and support services.*

**For over 75% of all units, there will be no change and in fact a reduction in fees for basic camp use while all other charges will remain the same. (i.e. specific program fees etc.) The new fees will apply only to those units that are not a SWFL Council Honor Unit.**
